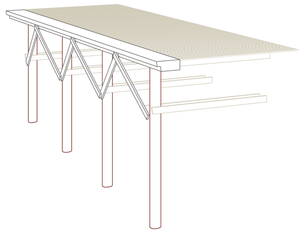
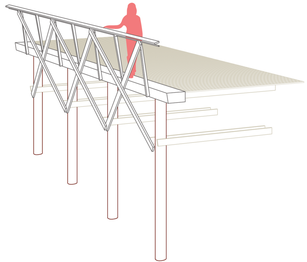
Structural Modules

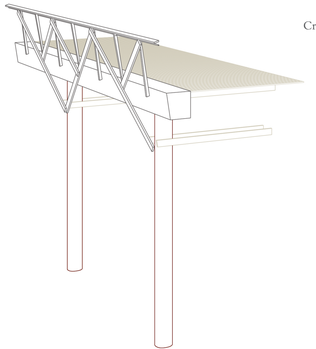


MODULE A
3 meter interval pile without handrail

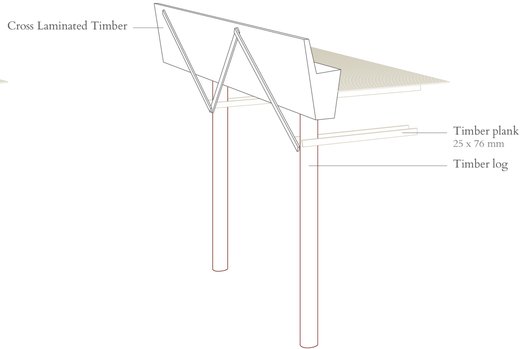


MODULE B
3 meter interval pile with handrail

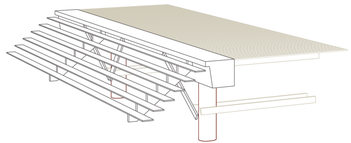
MODULE C
6 meter interval pile without handrail



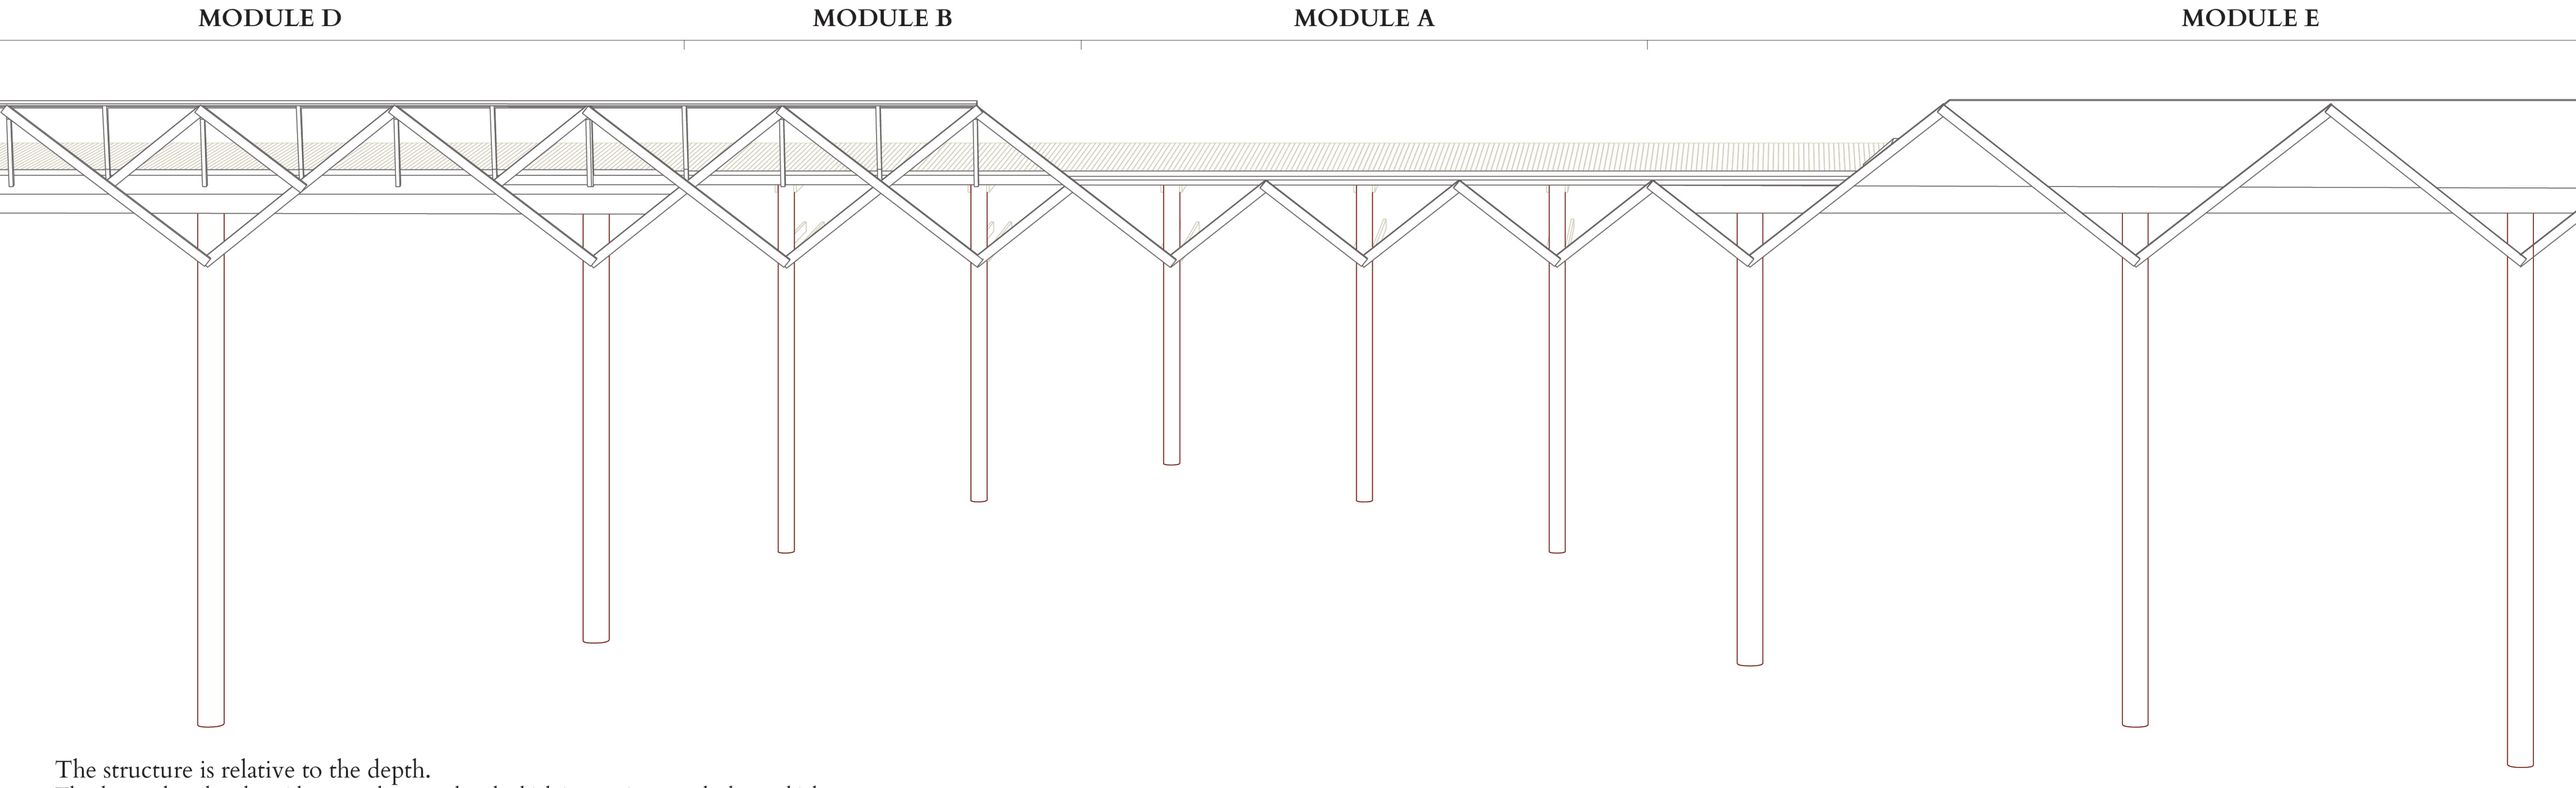
MODULE D
6 meter interval pile with handrail

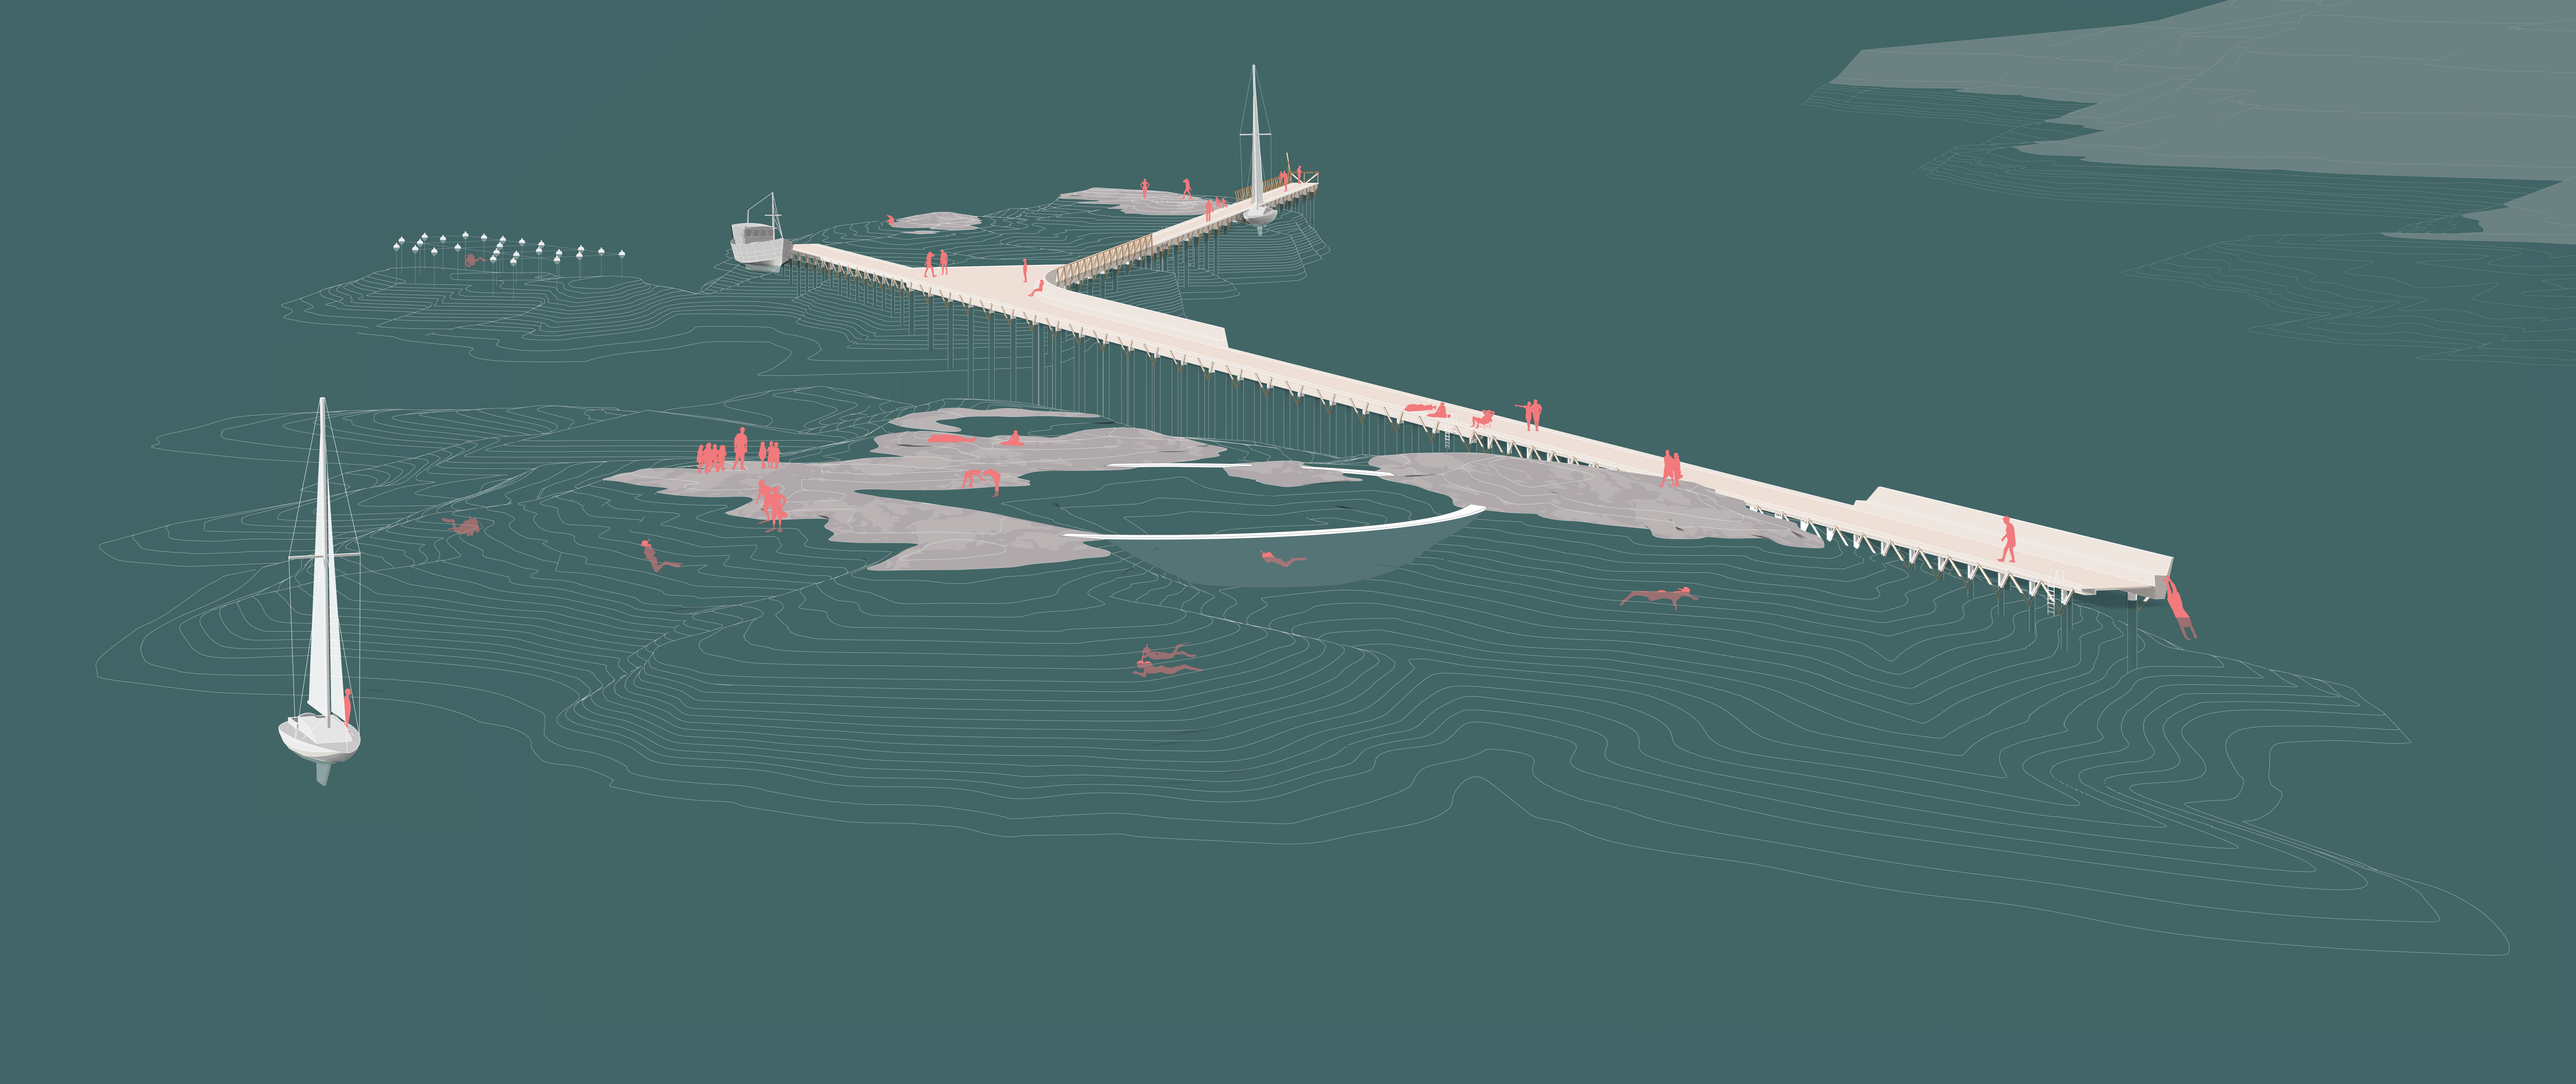


MODULE E
6 meter interval pile with seating



MODULE F
6 meter interval pile with stepped access to water





The structure is relative to the depth.
The deeper the piles, the wider apart they are placed which in turn impacts the beam thickness.
