OBOS 1930 – 2005

Et snitt gjennom norsk bolighistorie

Vedlegg til doktorgradsavhandlingen
"Apartment Layouts and Domestic Life;
The Interior Space and its Usability"

Arkitektur- og designhøgskolen i Oslo
The Oslo School of Architecture and Design

PhD thesis

Innhold

1. Introduksjon
2. Liste over enkeltprosjekter, kronologisk
3. Kronologisk presentasjon av enkeltprosjekter
4. Alfabetisk register, prosjekter etter boligselskap
5. Alfabetisk register, prosjekter etter arkitekt

1. Introduksjon

Dette vedlegget til doktorgradsavhandlingen “Apartment Layouts and Domestic Life; The Interior Space and its Usability” presenterer boligprosjektene som er studert i avhandlingens historiske del. De enkelte boligprosjekter er presentert med en side for hvert prosjekt, - i kronologisk rekkefølge. Første tall i prosjektnummer angir årstall for ”midlere innflytting” oppgitt av OBOS, det vil si at ”midlere innflytting” i prosjekt 32-1 var 1932. For å lette bruken av dette vedlegget som en ”katalog” over et utvalg norske boligprosjekter, lister dessuten registrene 4 og 5 prosjektene alfabetisk etter henholdsvis boligselskap og arkitekt.

Presentasjonene inneholder plantegning samt noen ”nøkkeldata” for prosjektene. ”Leilighetsfordeling” angir fordeling av leiligheter ved antall leiligheter av ulik størrelse, - størrelse i betydningen antall oppholdsrom foruten kjøkken. Fordelingen gjelder som regel bygningen hvor den valgte leilighet er hentet fra. I de tilfeller hvor et boligselskap består av flere ulike bygninger kan derfor leilighetsfordelingen i hele boligselskapet være annerledes enn ”leilighetsfordelingen” oppgitt her.

Vedrørende bakgrunn, valg av OBOS som ”case” og detaljopplysninger om utvelgelse av de enkelte prosjekter og leiligheter, se avsnittene 2.5, 3.3, 4.1 og 4.2 i avhandlingens hoveddel.

English Introduction

This volume is an appendix to the doctoral thesis “Apartment Layouts and Domestic Life; The Interior Space and its Usability” and presents the historical sample of apartments examined in the thesis. The housing projects are presented chronologically. The first part of the “project number” refers to the year of finishing construction. Finally, there are two indexes listing the projects by name and by architects, respectively.

As the presentation contains drawings and some key data such as architects, floor areas and addresses, it should be possible to understand most of the information without knowing Norwegian. The exceptions might be “Leilighetsfordeling”, which describes the distribution of apartments within each project by number of apartments and number of rooms and “Tegnet/byggemeldt”, which lists the year of design (the year the original architectural drawings were sent to the municipal authorities for approval).

Concerning information about the choice of OBOS as “case” and about the sampling of projects and apartments, please see sections 2.5, 3.3, 4.1 and 4.2 in the main volume of the thesis.
